***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 10,12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Gabard (6,805,205).

Gabard discloses a soil aeration tine including a means for fracturing soil including a curved elongate member 12' (fig. 8), and a means for removing a soil plug 2, laterally offset and coupled to the soil fracturing means as shown in figure 8. The examiner notes that the limitation "coupled to" is considered the same as "connected to one another". Additionally, "connected to one another" includes being joined together, but is broader than that, in that two things can be "connected" to each other by way of their common connection to something else. (Kreis AG v. American Hospital Supply Corp. (DC NII) 192 USPQ 585). Furthermore, it is noted that member 2 is considered a means for removing a soil plug since applicant has not invoked 35 U.S.C.112 6<sup>th</sup> paragraph, or claimed specific structure (as in claim 11), and member 2 removes soil plugs from the aeration area.

***Allowable Subject Matter***

Claims 1-9,15-18 are allowed.

Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claim 10 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
